BlueCross BlueShield of Texas

Updates to 2027 Texas Medicaid Primary Care Quality Improvement Program

Our Primary Care Quality Improvement Program aims to incentivize high-quality care for Medicaid patients. As part of the program, providers are rewarded for exceeding benchmarks for specified quality metrics.

We're updating the benchmarks and incentive amounts in the Texas Medicaid PC QIP Program for participating primary care providers. All participating PCPs will continue to be automatically enrolled in the program.

Information on the program will be included in the **Medicaid STAR, CHIP and STAR Kids Provider Manual**, effective **Jan. 1, 2027**.
